SLEEK

Cristal Lacado are a local, family business with of 30 years experience in the glazing industry. Since 2009 we have dedicated ourselves to producing, supplying and installing glass splashbacks, bathroom wall cladding, kitchen splashbacks, shower enclosures and other bespoke products for both residential and commercial customers.

Servicing and working with kitchen and bathroom studios, architects and individuals alike, our products are on Display in showrooms throughout the Costa Blanca and Spain.

Each key, fully qualified member of our in-house team benefits from a wealth of knowledge and an essential understanding of the surroundings in which our products are used. They are fully trained and experienced in all aspects from the initial quote up to the final installation.

Our brochure is designed to not only be a guide to our past work, but also an inspiration to many more design possibilities in coloured, printed or mirrored glass.

IN ADDITION WE OFFER A RANGE OF PRODUCTS INCLUDING:

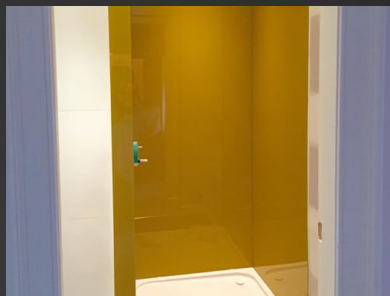

Mirrors
Glass Shelving
Shower Walling
Frameless Shower Enclosures
Digitally Printed Glass
Commercial Products
and more...

KITCHEN

Our stunning splashbacks will instantly transform your kitchen. Tailored to your specification and with a choice of over 18,000 colours to choose from.

BATHROOM

Equally at home in the bathroom, from a simple sink splashback to entire shower wall panelling or enclosures.

DECORATIVE PRINTED GLASS

Looking for something more personal than colour? Ask about our range of Decorative Printed Glass for feature walls to instantly add the "wow" factor.

If you are looking to transform your kitchen, then our **coloured glass splashbacks** are a contemporary alternative to conventional tiles.

Made from 6mm safety toughened glass they are heat resistant and waterproof with bevelled, highly polished edges for your safety and piece of mind. The beauty of the coloured glass is matched by its durability. Hygienic and maintenance free, it is the perfect modern surface.

Colour is as important as the overall aesthetic, so we offer a range of over 18,000 to choose from, including any from the Dulux, Farrom & Ball, Valspar, RAL, Pantone or BS ranges.

All of our splashbacks are tailored to your specification and we manufacture a single sheet of glass up to 3.2m long. All electrical sockets and light switches are accounted for and cut out using a CNC machine for maximum accuracy and to achieve a seamless effect.

BATHROOMS & Shower Enclosures

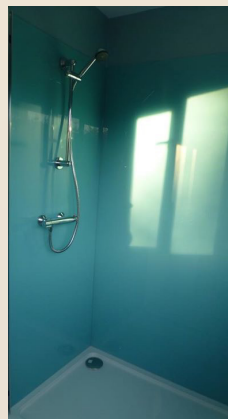

OUR RANGE OF STUNNING GLASS WALL COVERINGS ARE IMPERVIOUS TO WATER, MAKING THEM EQUALLY AT HOME IN THE BATHROOM.

We can create everything from exquisite shower walling, bespoke bath panelling and frameless shower enclosure to a simple sink splashback and much, much more.

As always, everything is tailored to your exact specification from the size, colour and finish to the CNC manufactured holes for fittings, fixtures and railings.

Our bathroom range is of the same high quality as our other product lines and we offer the same choice of over **18,000 colours** with various finishes to enhance the natural reflective nature of the glass to create a clean, open, fresh space in your home.

DECORATIVE PRINTED GLASS

OUR KITCHEN AND BATHROOM COLOURED GLASS PRODUCTS TRANSFORM ANY ROOM, HOWEVER FOR A TRULY PERSONAL BACKDROP, CONSIDER OUR **DECORATIVE PRINTED GLASS** TO MAKE A STATEMENT.

Kitchen splashbacks, feature walls, shower panelling, wall coverings – the possibilities are endless. We create any of our glass products using the image of your choice, giving you the opportunity to create your own work of art.

Simply browse and online stock image site such as shutterstock.com or istickphoto.com and choose from the millions of images available (vector images work best as they don't lose their resolution when increased to the required size). Make a note of the associated reference number and we'll take care of the rest. As an alternative, if you already have an image or logo you'd like to use, all we require is a high resolution copy.

In a residential setting you can uniquely personalise your home. In a commercial aspect, bar areas, receptions and restaurants are transformed.

OUR SHOWROOM

We can be contacted by any of the methods in this brochure. Alternatively we are proud to have the only dedicated splashback showroom in Spain in Catral, Alicante.

Here you'll find a large selection of our coloured glass samples available to view, colour swatches to browse and various models of our work on display.

Our friendly in-house tradespeople are available to discuss your requirements and options, explain the benefits of our products, answer any questions you may have, or arrange a free home visit and quotation.

Unfortunately due to work commitments we are unable to man the showroom constantly, so if you'd like to pay us a visit, please let us know in advance and we'll arrange for someone to be in attendance.

Feel free to visit our website gallery which is frequently updated, along with our Twitter feed and Facebook page. Here you'll find recently completed projects to give you an idea of what we are capable of and what we can do for you.

3.2m.

FAQS

What are the benefits of a glass splashback?

Glass splashbacks provide a durable, hygienic and striking reflective surface in all sorts of architectural settings, most typically, kitchens, bathrooms, bars and restaurants. Glass provides a large, seamless surface that is easy to clean and maintain.

What type of glass is used?

We use opti-clear, low iron glass as standard throughout our range. Low iron glass eliminates the green tint often associated with normal clear glass and lends itself to a more accurate representation of the colour applied to the reverse. Our splashbacks are 6mm safety toughened, providing a product that is light enough to be handled and installed, yet strong enough to adhere to UK building standards. The purpose of toughening is two fold. One, it makes the glass 4-5 times stronger than non-toughened glass and two, the toughening process makes the glass resistant to heat, which is required for use behind a kitchen hob.

When should I engage Cristal Lacado in my project timeline?

We offer a free, no obligation quote and home visit service. We are flexible and can offer evening or weekend appointments at your convenience. If the initial quote is acceptable, we then return and carry out an accurate laser measurement and survey. Our only stipulation for the laser measurement is kitchen worktops are fitted. Our guide lead time is 35 days, however we aim to complete the majority of projects within 30 days.
